Introduction

I am Deepak Kumar Nath. I a Leading Ethical Hacker, IT Security Professional & Serial Entrepreneur with more than 10+ years of Experience. I've been honoured with Hall of Fames from Facebook, Microsoft, Blackberry, Sony, AT&T, Mastercard and many more Companies. I'm Heading 6+Companies and Leading the team of 100+ Members. I've Audited 65+ International & 350+ Domestic Companies for Delivering many innovative Cyber Security Solutions. The list includes many International Banks, Fintech Companies, Units of United Nation, many Departments of Govt. of India, Government of Odisha, Government of Bihar, Govt. of Assam along with Fortune 500 Companies.

I'm a certified Lead Auditor for ISO 27001, PCI DSS, PA DSS, CMMI, HIPAA and many more Infosec Compliances. Apart from Expanded Innovative Research & Projects, I am actively involved in Training and Research Works. My Certifications in Infosec include CISA, CPENT+LPT, CCISO, CPTe and many more. I am also a Certified EC-Council Instructor, Certified CISCO Instructor. I have Trained IPS Officers, Police Officers, IT Professionals, Developers, Cyber Security Experts and 48000+ Students all over India.

I have been a Tedx Speaker and Initiated CISCO Cyberops Workshop with CISCO in South India. I am working as Advisory Member of Odisha Police for Solving Cyber Crime Cases & have Solved many cases. I was an invited Speaker at Tech Bhubaneswar 2.0 and Nextgen Skill Conclave, Bangalore on Advanced Enterprise Security & Risk Management. I have trained many Corporate Employees at WIPRO, Infosys, Vodafone on Cyber Security. I have been Awarded with Youth of Odisha, Youngest Entrepreneur of Odisha etc. I have also worked for government agencies, Banking & Financial clients, IT Companies and corporations to foolproof their system against cyber attacks and managed security solutions with CYQER "Cyber Yield Quantification for Enterprises & Reporting", the all in one SIEM Solutions for SOC. I've also been awarded the Industry Excellence Award as Leading Cyber Security of India by WIEF, supported by MSME, Startup India, Govt. of India.

Based on market standards and referential (ISO, PCI, CoBIT, CIS, NIST, OSSTMM etc.) I help clients to increase risk control throughout proper security management process and provide one of the best cyber security consulting. I have assembled an unmatched interdisciplinary team of security experts to design and build an unrivalled platform for protecting your operations from cyber threats.

A Journey of Serial Entrepreneurship

Over the years, I have been part of several organisations besides founding many companies and evolving for many other associated partners.

Simulation Tool

A Tradition of Excellence in empowering Cyber Security skills

As a certified EC Council & CISCO Instructor, I am involved with practical training services via workshops, seminars, corporate training and partnership with educational institutes. In order to dive deeper into the goal of inspiring and guiding students for developing extraordinary cyber security skills, I founded GIIS. i.e Global Institute of Information Security is an educational trust for empowering youth with skills development training. For all kinds of Cyber Security Certifications, we have Securium Solutions Pvt. Ltd.

with a long term
vision for infosec
placement

Focus on the latest trends, new technologies and in-demand skills on Cyber Security

Corporate Trainings

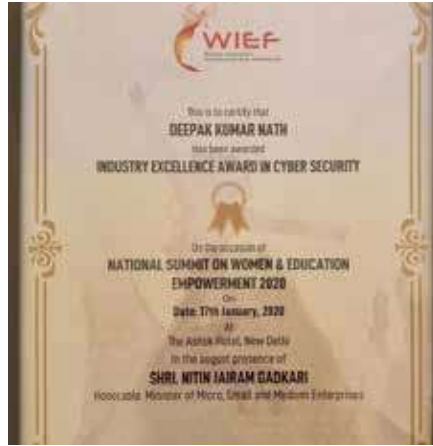

Inaugurated CISCO's first Cyberops Workshop at Swarnandhra institute of engineering, Andhra Pradesh.

Our mission is guided by our commitment to empowering students and professionals to achieve their career goals by providing access to high quality and affordable education of technology and in-demand skills, especially in Cyber Security. We have an explicit promise of value to the students to make their future more precious both on a personal and professional level through certifications and advanced training programs.

Dream, Achieve, Repeat

Started the entrepreneurial journey at the young age of 18. Now, I'm a leader with a successful career and several milestones. Over the years I have participated in several events and conferences as a guest speaker, mentor and resource person. I've received 12+ Awards & Recognitions and inspired many communities.

Four motivations of my life

Find a purpose and accomplish it

I never underestimate my own strength. I believe I am born with a purpose and have the power to achieve it. I try hard, work hard and never look back.

I compete with myself

I keep competing with myself to get better. I am always willing to bet on myself and do whatever it takes to win. I keep updating myself with the market to be the best me.

Doing the impossible

My greatest pleasure is in doing what people say I can't do.

Have faith in God and do your work

I never imagined I will be where I am today when I started my journey. I believe if you have faith in God and work hard, success will come to you.
