

THREATSYS

Technologies Pvt. Ltd.

Operating globally

Your **360°**
Cyber Security
Partner

Strengthen your Cyber Defence & Protect Against Tomorrow's Attacks.

Threatsys is a leading and trusted cyber security Consulting Partner that specializes in securing the IT infrastructure and assets of some of the leading enterprises globally. #EradicatingThreatsGlobally
Threatsys protects \$1Billions transactions every year.

BEFORE AN ATTACK: Track and analyze adversary groups the globe for actionable intelligence.

DURING AN ATTACK: Detect targeted and advanced persistent threats and campaigns.

PREPARATION FOR AN ATTACK: Strengthen cyber readiness across the entire organization to recognize and prevent advanced attacks.

AFTER AN ATTACK: Respond quickly and effectively to credible security threats.

Threatsys Threat Intelligence
Threatsys Threat Intelligence provides a deep understanding of adversary groups to inform security operations, risk, technical and strategic decisions to proactively identify and neutralize threats and prevent advanced attacks and thwart the motivations and techniques of these actors.

Managed Security Services
Threatsys Managed Security Services enables organizations to focus on critical events by utilizing advanced analytics, advanced threat intelligence and a seasoned team of dedicated threat hunters who provide a designed service manager and assigned team who are experts in the customer's industry, providing continual collaboration and partnership.

Incident Response
Threatsys Incident Response Services work with organizations around the globe with speed and precision to identify, contain and eradicate threats, leveraging decades of experience, threat tools and procedures. Services help organizations react to breaches as quickly as possible and strengthening an organization's overall ability to detect and eradicate future threats.

Cyber Skills Development
Threatsys Cyber Skills Development services increase organizational readiness to cyber attacks and detect non-technical employees. This program trains and equips employees with the skills and knowledge to identify and report suspicious activity, such as spear phishing. Additionally, scenario-based training provides a safe environment to understand the risks of a successful phishing attack.

Mitigating Risk Overcoming Threats

Threatsys Technologies (P) Ltd, The leading and security Consulting Partner that specializes in securing infrastructure & assets of some of the leading enterprises globally.

We protect \$1Billions transactions every year.
Let's Eradicating Threats Globally

How secure is my organization?
One of the most difficult questions CISOs must answer

A cyber attack puts everything at risk — an organization's brand, reputation, and intellectual property. CISOs know they must make fast and informed decisions during a crisis and also quickly assess the impact of the attack and understand the root cause.

Threatsys Cyber Security Services offer what no other organization can provide: an integrated and purpose-built portfolio of human expertise, advanced machine learning capabilities and technologies actionable global threat intelligence.
